## FOREWORD

This report is one of a series of provincial reports on the results of the 1980 Census of Population and Housing conducted on May 1, 1980.

Demographic data presented herein consist of population distributions according to age, sex, marital status, highest grade completed and literacy. Other bases as gainful occupation, industry and migration are included likewise.

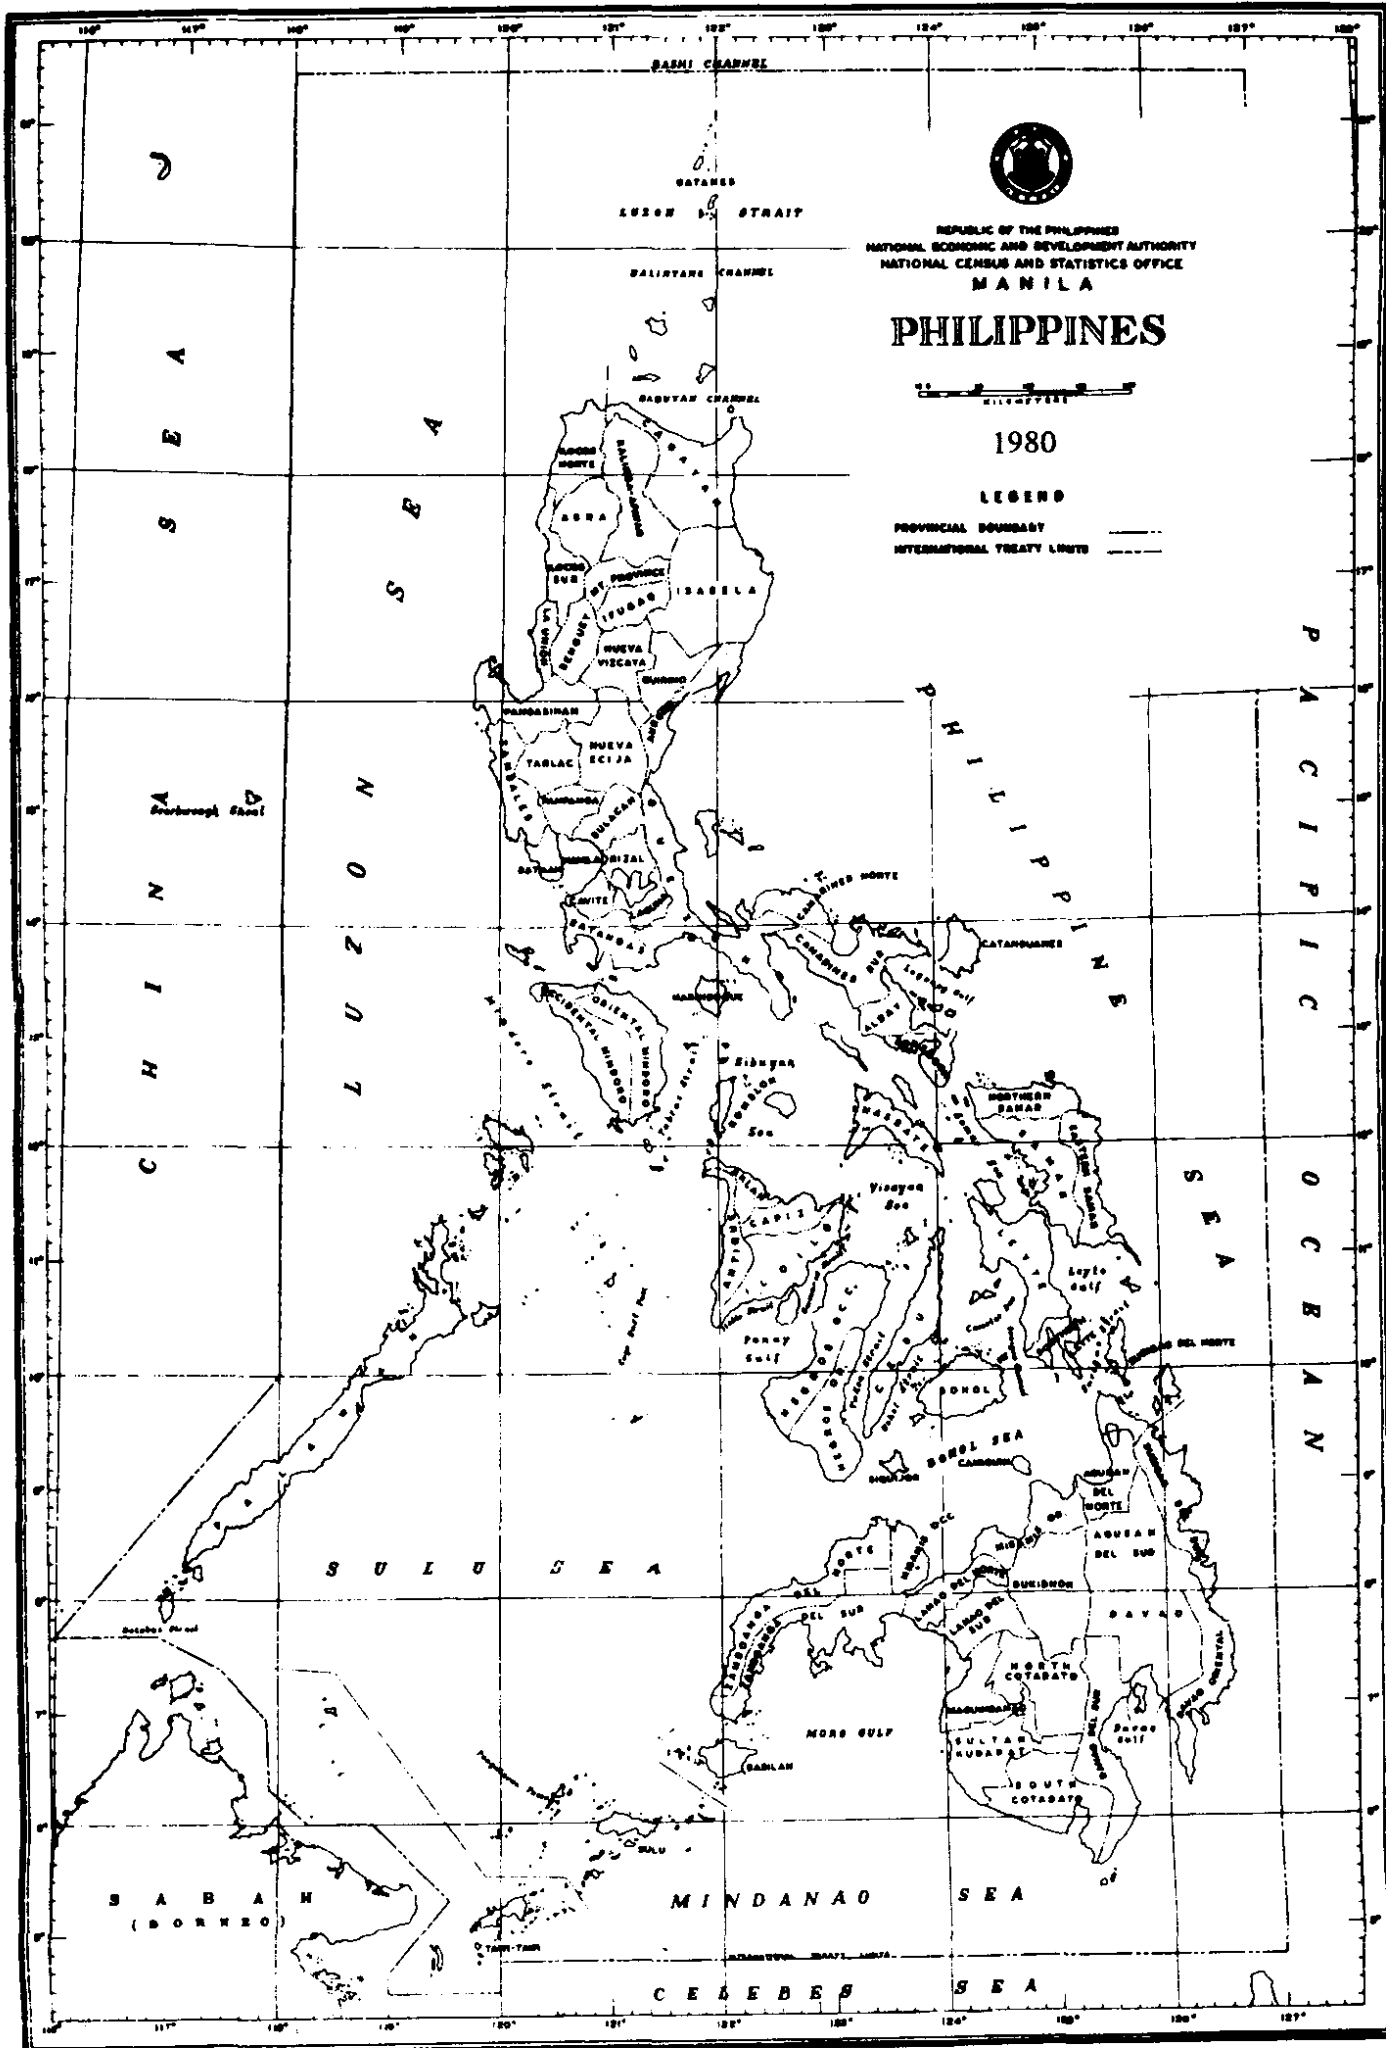

In the other aspect of the census, the following housing characteristics are considered: type of building, structural characteristics, floor area, type of tenure, use and source of water supply, lighting, type of toilet facilities, kind of cooking fuel used and appliances.

Subsequent issues will be the National Summary (Volume II) containing summary data on the final provincial reports and the Special Volume on National Capital Region (Metro Manila Area) which will cover data on the social, economic and demographic characteristics of the region.

Grateful acknowledgment is due the National Census Coordinating Board, government agencies, committees and the local coordinating boards for their invaluable assistance and cooperation.

  
TITO A. MIJARES

E	PH Form 4 – Collective Household Questionnaire . . . . .	105

# **Explanatory Text**

## **GENERAL**

### **INTRODUCTION**

The National Census and Statistics Office conducted in May 1980, the 1980 Census of Population and Housing. This type of Census was also undertaken in May 1970. In May 1975 the Census of Population was taken as Phase I of the 1975 Integrated Census of the Population and Its Economic Activities. This nationwide undertaking was designed to obtain comprehensive data on the size, distribution, structure, change and socio-economic characteristics of the population and to take inventory of the housing accommodations, their geographic location, structural characteristics, available facilities, etc.

The population report contains data gathered from private households as well as collective households, while data on housing were collected from private households only.

It should be emphasized at this point that a complete enumeration of all households throughout the country was made but only sample household questionnaires representing 20 percent of the listed households were processed and the data published in this volume. In so doing, however, the total population count by barangay, male and female, obtained from the listing sheet taken simultaneously during the enumeration was maintained in computing the weights or expansion factors. It should also be noted that data on Tables 1 to 4 of the population tables refer to total population, that is, the population of the private households plus the collective households while Tables 5 to 10 cover exclusively the private household population.

Pursuant to the provision of Batas Pambansa Bilang 72, a final count of the population, by sex at barangay level was submitted to the President and was approved under Proclamation No. 2170 dated March 12, 1982. This report was published separately in 74 provincial volumes.

### **AUTHORITY FOR THE 1980 CENSUS**

Under Commonwealth Act No. 591, the National Census and Statistics Office is authorized "to prepare for and undertake all censuses of population, agriculture, industry and commerce."

It may be mentioned in this regard that sometime in February 1980 Parliamentary Bill No. 809 was presented at the Batasang Pambansa, providing for the taking of an integrated census every ten years beginning 1980, with May 1 of every census year as the reference date. This bill was approved into Batas Pambansa Bilang 72 on June 11, 1980, more than one month after the start of enumeration.

### **INTER-AGENCY PARTICIPATION**

The expertise and technical advice of the National Economic and Development Authority Inter-Agency Committee on Population and Vital Statistics and its Technical Working Group on 1980 Census of Population and Housing played a vital role in the successful undertaking of the census.

The Committee's main function was to review the questionnaire, methodologies, concept, tabulation and other related aspects of the census in the production of data and development of systems that would produce more reliable and accurate result. It had for its chairman the Dean of the University of the Philippines Population Institute (UPPI) and for its members, one representative each from the Ministries of Human Settlements (MHS), National Defense (MND), Education and Culture (MEC), Health (MOH) and Local

## **EXPLANATORY TEXT**

Government and Community Development (MLGCD); the Commission on Population (POPCOM); National Economic and Development Authority (NEDA); and two representatives from the National Census and Statistics Office (NCSO). The Technical Working Group (TWG) for the 1980 Census of Population and Housing was headed by the Chief of the National Census and Household Surveys Department of NCSO and the members were representatives from the MHS, EPRS-NEDA, SCO-NEDA, POPCOM, UPPI, MOH, MEC, and the National Housing Authority (NHA).

Recommendations were likewise solicited from other government agencies for questions that should possibly be included in the population and housing portions in order to fill their data needs.

As early as August 1977, an NCSO Technical Committee for censuses was created. Ranking officials of the National Census and Statistics Office comprised the committee, with the Assistant Executive Director as Chairman, the Chief of the National Census and Household Surveys Department (NCHSD) as Vice-Chairman and Heads of six other departments and staff offices as members.

The committee coordinated with the Inter-Agency Committee and TWG of the NEDA on the technical aspect of the census and rendered a monthly progress report to the Executive Director. It provided the overall direction of the activities of the different subcommittees on census. The two subcommittees created, the Sub-Committee on Population and Housing Census and the Sub-Committee on Operations and Logistics Support, were directly charged with the preparatory work for the census undertaking.

### **CENSUS BOARDS**

A systematized involvement of government agencies and instrumentalities was made possible largely through the concerted efforts of the members of the National Census Coordinating Board (NCCB) and the Provincial, City and Municipal Census Boards. The national board was created by NEDA Memorandum Order No. 4-80, dated April, 1980 and the local boards, by Memo Order No. 5-80, dated April 1, 1980, by virtue of the powers vested in the Minister of Economic Planning under Section 3 of Presidential Decree No. 1200.

The NCCB was headed by the Minister of Economic Planning as Chairman with the Executive Director as Executive Officer. Named as members were the Ministers of Agriculture, Budget, Education and Culture, Finance, Human Settlements, Public Works, Justice, Labor, Local Government and Community Development, National Defense, Natural Resources, Public Highways, Public Information and Transportation and Communication. Rules and regulations necessary for the successful undertaking of the census were issued by the Board.

At the local government level, similar functions were carried out by the Provincial City and Municipal Census Boards. The Provincial Governor headed the Provincial Census Board while the Division Superintendent of Schools was Vice-chairman. Members were the Highway District Engineer, Provincial Auditor, Provincial Commander of the Philippine Constabulary, the Provincial Development Officer and the Provincial Agriculturist. The City Census Board was composed of the City Mayor as Chairman; City Superintendent of Schools, Vice-chairman; and the City Engineer, City Assessor and City Development Officer, members. Finally, the Municipal Census Board had for its Chairman the Municipal Mayor and ably assisted by the District Supervisor as Vice-chairman. The members were the Municipal Agriculturist, Station Commander, Municipal Treasurer and the Municipal Development Officer.

## **EXPLANATORY TEXT**

For each of these local census boards, the Provincial Census Officer, City Census Officer and the Municipal Census Officer were designated Executive Officer of their respective Board.

### **CENSUS ORGANIZATION**

The overall direction and instructions for the census undertaking emanated from the Executive Director of the National Census and Statistics Office or in his absence, the Assistant Executive Director.

Assisted by the Task Force from the Central Office and in coordination with the local census boards, the Regional Census Officers and the Provincial Census Officers directly supervised the field operations in their respective areas. The services of District Supervisors, Head Teachers and elementary school teachers from public schools were utilized as City/Municipal Census Supervisors, Team Supervisors and Enumerators in that order.

During the field operations, the 1980 Census Operations Center under the overall supervision of the National Census and Household Surveys Department Chief, was the operating body that monitored the overall operations. Lending support to the center were the Administrative and Fiscal Services Staff.

### **METHOD OF ENUMERATION AND USE OF SAMPLING**

The household was used as the enumeration unit and a complete listing of dwelling units, including vacant ones, was done.

A combination of complete enumeration and sampling was adopted. While all households were asked on the count of the population and housing characteristics, only twenty percent (20%) were asked on other characteristics. The selection of sample households was done systematically with a random start from a listing of households which was prepared simultaneously with the enumeration.

Using PH Form 2 (Common Private Household Questionnaire) and with an 80 percent coverage, the items asked on population were household membership, relationship to head, line number of mother, sex, date of birth, age as of last birthday and marital status. For the housing items, the type of building and the construction materials of roof and outer walls, number of rooms, floor area of the dwelling unit and the year the building was built were asked.

In addition to the population and housing items just mentioned, additional information were asked using PH Form 3 (Sample Private Household Questionnaire) from the 20 percent samples such as language or dialect generally spoken at home, citizenship, usual residence of mother at person's birth, residence of person in 1975, ability to speak Pilipino and English, school attendance, highest grade completed, literacy, economic activity of the person, place of schooling or work, fertility, nature of occupancy of the dwelling unit and housing facilities and conveniences.

Collective households were enumerated using PH Form 4, where the information asked were the same as those in PH Form 2, excluding housing items.

### **PLACE WHERE ENUMERATED**

All persons were enumerated in their usual place of residence, which is the geographic place (street, barangay, sitio, municipality or province) where the enumerated person usually resides. As a rule, it is the place where he usually sleeps; therefore, it may be the same as or different from the place where he was found at the time of the census.

## EXPLANATORY TEXT

### POST ENUMERATION SURVEY

Originally the plan was to conduct a Post Enumeration Survey covering the whole country. For lack of funds the survey had to be confined to Metro Manila. Its purpose was to determine the extent of underenumeration or overenumeration in the 1980 Census of Population and Housing.

A sample of 132 barangays was selected. However, in 59 barangays which were divided into two or more enumeration areas (EAs), an enumeration area was chosen as sample.

A complete listing was made of households in the sample barangays/EAs using PH Form 1-B. Twenty percent of these households were selected as sample households and interviewed using PH Form 2, which was the same questionnaire used for non-sample households during the main enumeration. The housing portion of this form was disregarded.

### CONTENT AND COVERAGE OF THE PUBLICATION

In this publication, the population and households were described according to the respective items listed below:

Population Items	Housing Items
Age	Type of Building
Sex	Type of Occupancy
Marital Status	Construction Materials of Roof and Outer Walls
Highest Grade Completed	Year Built
Literacy	Floor Area of Dwelling Unit
Language/Dialect Spoken in the Household	Tenure of Owner-Occupant with Respect to the Land
Gainful and Non-Gainful Occupation	Kind of Lighting Facilities
Major and Minor Industry	Use and Source of Water Supply
Migration	Type of Toilet Facilities
	Kind of Cooking Fuel
	Household Appliances

The above items are presented in the ten population tables and nine housing tables of this report.

Except for figures on total population and sex, all other characteristics were based on a 20 percent sample.

Aside from these published tables, 10 other tables on the above characteristics plus 6 statistical tables dealing on ever-married women 15 years old and over are also available to statistical users.

### DEFINITION OF TERMS AND CONCEPTS

#### I -- POPULATION

##### BARANGAY

A barangay is the smallest political unit in the country and generally its enumeration is

## **EXPLANATORY TEXT**

assigned to one enumerator. For enumeration purposes, a large barangay is usually split into parts and each part is called an enumeration area (EA).

### **ENUMERATION AREA**

An enumeration area (EA) is a delineated area assigned to one enumerator, usually consisting of about 300 households. A barangay or part of a barangay may have been designated as an enumeration area.

### **URBAN AND RURAL AREAS**

The same concepts used in the 1970 and the 1975 Censuses were followed in classifying areas as urban. According to these concepts, urbanized areas consist of:

1. In their entirety, all cities and municipalities having a population density of at least 1,000 persons per square kilometer.
2. Poblaciones or central districts of municipalities and cities which have a population density of at least 500 persons per square kilometer.
3. Poblaciones or central districts (not included in 1 and 2), regardless of the population size, which have the following:
  - a. Street pattern, i.e., network of streets in either parallel or right-angle orientation;
  - b. At least six establishments (commercial, manufacturing, recreational and/or personal services); and
  - c. At least three of the following:
    - 1) A town hall, church or chapel with religious services at least once a month;
    - 2) A public plaza, park or cemetery;
    - 3) A market place or building where trading activities are carried on at least once a week;
    - 4) A public building like a school, hospital, puericulture and health center or library.
4. Barangays having at least 1,000 inhabitants which meet the conditions set forth in 3 above, and where the occupation of the inhabitants is predominantly non-farming or fishing.

All areas not falling under any of the above classifications are considered rural.

### **PERSONS ENUMERATED IN A PRIVATE HOUSEHOLD**

The following were counted and enumerated as members of the household:

1. Persons whose usual place of residence is the place where the household lives and present at the time of visit of the enumerator, except those born after 12:01 A.M., May 1, 1980;
2. Persons whose usual residence is the place where the enumerated household lives, but temporarily away at the time of enumeration, such as:
  - a. persons temporarily away on vacation, business or pleasure trip or any other purpose in the Philippines who are expected to be back within six months,

## EXPLANATORY TEXT

- or within one year, if abroad;
  - b. students who usually go home to their respective households at least once a week;
  - c. persons working elsewhere who usually go home to their respective households at least once a week;
  - d. patients confined in hospitals for not more than six months at the time of enumeration of the household, except those confined (1) as inmates (not patients in wards for temporary confinement) in tuberculosis pavilions; (2) in mental hospitals; (3) in leprosaria or leper colonies; and (4) in rehabilitation centers for drug addicts;
  - e. trainees in the Armed Forces of the Philippines, if their training is not more than six months;
  - f. convicts and detainees in provincial or municipal/city jails or military camps, who have been confined for not more than 6 months at the time of enumeration of the household, except those who have been sentenced for more than 6 months (including those whose sentence is on appeal), even though just confined; and
  - g. officers and crew members of coastal, interisland, or fishing vessels; officers and crew members of ocean-going vessels who usually go home to their household at least once a year.
3. Boarders of the household who are working, looking for work or studying, and who do not go home at least once a week;
  4. Employees of household-operated enterprises who eat and sleep with the household and who do not go home at least once a week;
  5. Persons (other than those in "3" and "4") whose usual place of residence is elsewhere, but who have been away from their usual place of residence for more than 6 months;
  6. Members of the Armed Forces of the Philippines including draftees, sleeping most of the nights with the household, except those who only board or lodge with the household and who usually go home at least once a week; in such a case, they will be enumerated in their own household;
  7. Persons found in the household who have no usual place of residence elsewhere;
  8. Persons found in the household who are not certain of being enumerated elsewhere;
  9. Persons who consider the dwelling unit of the household as their usual place of residence but are living within the premises of a foreign embassy, ministry, legation or consulate, including non-Filipino employees who have been residents of the Philippines before such employment;
  10. Citizens of foreign countries and Filipinos (balikbayan) who have resided or expect to reside in the Philippines for more than one year from arrival;
  11. Persons who sleep in the same dwelling unit but may not be able to take all or some of their meals with the household because of the nature of their work or other similar reason (they take their meals at place of work, etc.), should be considered as part of the household; and
  12. A household member who is alive as of 12:01 A.M., May 1, 1980, but dies prior to the enumeration of the household.

## EXPLANATORY TEXT

### PERSONS TOTALLY EXCLUDED FROM THE ENUMERATION

Totally excluded from the population count of the Philippines were:

1. Foreign ambassadors, ministers, consuls or other diplomatic representatives, and members of their households (except Filipino employees and non-Filipino employees who had been residents of the Philippines prior to said employment);
2. Citizens of foreign countries living within the premises of an embassy, legation, chancellory or consulate;
3. Officers and enlisted men of U.S. Military or Naval Forces and non-Filipino members of their households, irrespective of residence; foreigners who are civilian employees in U.S. military or naval stations and member of their families living within the premises of said stations or reservation; (Note: for foreigners who are civilian employees of said stations living outside the station or reservation, see Item 5).
4. Citizens of foreign countries who are Chiefs and officials of international organizations like UN, ILO or USAID, who are subject to reassignment to other countries after their tour of duty in the Philippines, and members of their families;
5. Citizens of foreign countries together with non-Filipino members of their families, who are students or who are employed, or have business in the Philippines and have been in the Philippines or expect to stay in the country for one year or less from arrival;
6. Citizens of foreign countries and Filipinos with usual place of residence in a foreign country, who are visiting in the Philippines and expect to stay in the country for one year or less from arrival (e.g. a *balikbayan* who will return to his usual place of residence abroad after a short vacation or visit in the Philippines);
7. Citizens of foreign countries in refugee camps/vessels; and
8. Residents of the Philippines on vacation, pleasure or business trip, etc. abroad, who have been away or expected to be away from the Philippines for more than one year from departure.

### USUAL PLACE OF RESIDENCE

The term refers to the geographic place (street, sitio, barrio/barangay, municipality or province) where the enumerated person usually resides. As a rule, it is the place where he sleeps most of the time; hence, it may be the same as or different from the place where he was found at the time of the census.

### HOUSEHOLD

A household usually consists of a group of persons who sleep in the same dwelling unit and have common arrangements for the preparation and consumption of food. A person who lives alone is considered as one separate household. Although in most cases a household consists of a related family group, some household members may have no relationship to the central group. Boarders and servants, for instance are counted as part of a particular household if they take their meals with the household and sleep in the same dwelling unit. Persons who sleep with a household but individually cook their meals or eat elsewhere are each considered as single-person household.

## **EXPLANATORY TEXT**

Three generations may be living in one dwelling unit. If they are divided into two or more groups whose eating arrangements are independent from each other, each group is counted as a separate household.

### **PERSONS NOT LIVING IN HOUSEHOLD**

Falling under this category are persons living in collective living quarters such as welfare institutions (orphanages and homes for the aged or infirm); penal and corrective institutions (jails, national penitentiary, and reformatory institutions); hospitals, sanatoria, leprosaria, and nurses homes; dormitories and boarding schools; lodging houses such as hotels, tourist homes and the like; military camps and others.

Most of these institutions house inmates for whom care or custody is provided by resident staff members, or persons residing in group quarters or in housing units on the institutional grounds.

Private families living within such institutions, however, are excluded from the classification, as well as persons (employees, students, etc.) who go home to their families on weekends or days off. Persons found in lodging houses, but who are on vacation or business trips and whose absence from home does not exceed six months on the day of enumeration, are likewise not counted as part of the institutional population.

### **RESPONDENT**

A respondent is any responsible adult member of the household who furnished the information or answers to questions during the interview.

### **LANGUAGE/DIALECT GENERALLY SPOKEN IN THE HOUSEHOLD**

This refers to the language or dialect spoken most of the time by members of the household. In cases where two or more languages/dialects are spoken by household members, the one most often used in conversations among members of the family of the head when most of them are gathered together is considered as the language/dialect generally spoken in the household.

### **HEAD OF HOUSEHOLD**

The person responsible for the care and organization of the household is generally considered as the head of the household. He usually provides the chief source of income for the household.

In the case of a household consisting of two or more unrelated persons sharing a dwelling unit and sharing the same cooking facilities and meals, the head is usually the eldest male or female in the group regarded as such by the other members.

### **RELATIONSHIP TO HEAD OF HOUSEHOLD**

This determines how each household member is related to the head, who is usually the husband or father, although in his absence or if incapacitated, the wife may be designated as head.

1. Spouse — a woman/man married to and living with the head. This includes legal marriages as well as common-law relationships.
2. Son/daughter — the head's own child, stepchild, or adopted child.

## EXPLANATORY TEXT

3. Son-in-law/daughter-in-law — refers to a household member related to the head by marriage to his daughter or son.
4. Grandson/granddaughter — child of the son or daughter of the head.
5. Other relative — a household member related to the head by blood, marriage, or adoption. Father, mother, aunts, nephews, parents-in-law and cousins are examples.
6. Others — any person in the household who is usually a non-relative of the head. Boarders and servants fall under this category. Certain members of the household who are related to the head by blood or affinity, but are actually boarders or servants in the household, are classified under "Others".

For collective households and group quarters, the question on relationship refers to the person's relationship to the institution or establishment, and not to the person recorded as head.

## AGE AND DATE OF BIRTH

Data on the age of the population were obtained by asking the respondent the month and year of birth and the age itself of the household member before May 1, 1980. To ensure accuracy, a conversion table on age before May 1, 1980 was prepared for the use of enumerators, editors/coders and verifiers.

## MARITAL STATUS

This refers to the civil status of all persons 10 years old and over. A person in this age group is classified as single, married, widowed, separated or divorced, or civil status unknown, based on the following definitions:

- a. Single — If never been married.
- b. Married — Legally married or living consensually with husband/wife without benefit of a legal marriage. A person classified as "married" includes one who remarried after having been widowed, separated or divorced or one temporarily separated from spouse owing to the nature of work, illness or service in the Armed Forces.
- c. Widowed — A person whose spouse died and who has not remarried at the time of enumeration.
- d. Separated — If permanently separated from spouse either legally or otherwise, due to marital discord.
- e. Divorced — If bond of matrimony has been dissolved through a court decree and is therefore free to remarry.
- f. Unknown — If civil or marital status is either not known to the respondent, or the respondent himself refuses to reveal the marital status of such person.

## CITIZENSHIP

Citizenship is defined as the legal nationality of a person. A citizen is a legal national of the country of the census; an alien is a non-national of the country.

## LITERACY

A person is considered literate if he is able to read and write a simple message in any language or dialect.

## **EXPLANATORY TEXT**

### **HIGHEST GRADE COMPLETED**

This has reference to the specific grade or year completed in elementary school, high school, college or university, by persons 7 years of age and over. Academic degree holders are classified according to the title of the degree received or the major field of study undertaken.

### **USUAL OCCUPATION**

This refers to the specific job or kind of work that a person, who works most of the year, is usually pursuing, or if unemployed at the time of enumeration, it is the kind of work he used to do most of the year. A person is considered as usually working most of the year if he works for at least 10 hours a week for 26 weeks either for pay in cash or in kind, for a fee or profit in own farm, business or establishment or practice of a profession and without pay on family farm or enterprise. This particular group of workers is referred to as gainful workers.

For persons who do not work most of the year, the usual occupation relates to the non-gainful activities they usually do most of the year. Among such persons are housekeepers, students, pensioners, retired and disabled. However, a person who is housekeeping or schooling and also works in a gainful activity was reported as gainfully employed, even if more time was spent housekeeping or studying, as the case may be.

### **INDUSTRY**

Industry refers to the specific character and nature of business or industry or the place where the work is being performed in connection with the job or occupation reported for a person.

### **EVER-MARRIED WOMAN**

This refers to a woman who has already entered married life. Marriage here may either be legal or consensual union. At the time of enumeration the ever-married woman may still be married, or already widowed, separated or divorced.

## **II – HOUSING**

### **BUILDING**

A building is any independent free-standing structure comprising one or more rooms or other spaces, covered by a roof and enclosed within external walls or dividing walls with adjacent building which usually extend from the foundation to the roof. It usually contains one or more rooms internally connected with one another. A building therefore, is any structure intended for dwelling, storage, factory, shelter or for some other useful purposes.

For purposes of the 1980 Census of Population and Housing, only the following buildings were listed and assigned building serial numbers:

- a. A house or any kind of building or shelter where people were actually living;
- b. A residential building (house, apartment or accesoría, condominium) that was vacant;

## EXPLANATORY TEXT

- c. Hotel, motel, lodging house, dormitory or camp (construction, logging, mining, etc.) in operation;
- d. A commercial, office, industrial, agricultural or other kinds of buildings with one or more dwelling units (containing a kitchen/kitchen-dining room, living room and a bedroom, and with separate entrance) which were all vacant.

The different types of buildings are:

1. **Single house** – a complete structure intended for one household. It includes the so-called “nipa hut” or a small house that is built as a more or less permanent dwelling unit.
2. **Duplex** – a structure intended for two households, with complete living facilities for each. It is divided either vertically or horizontally into two separate dwelling units which are usually identical.
3. **Apartment/accesoria/condominium/row house**

An apartment is a structure usually of several stories, made up of three or more independent entrances from internal halls or courts. It differs from an accesoria in that an apartment has one common entrance from the outside.

An accesoria is usually a one or two-floor structure divided into three or more dwelling units, each dwelling unit having its own separate entrance from the outside. Another name for accesoria is row house.

A condominium is usually a high-rise building where the dwelling units are owned individually but the land and other areas and facilities are owned in common.

4. **Improvised (barong-barong)** – a makeshift or roughly constructed house usually built with salvaged materials.
5. **Commercial/industrial/agricultural** – buildings not intended for human habitation but used as dwelling units at the time of the census.

**Commercial** – a building used for transacting business or rendering professional services, such as a storage or an office building.

**Industrial** – a building used for processing, assembling, fabricating, finishing, manufacturing or packaging operations, such as a factory or a plant.

**Agricultural** – any structure used for agricultural purposes, such as a barn, warehouse, rice mill, etc.

6. **Other housing unit (natural shelter, boat, etc.)**

This refers to living quarters which are not intended for human habitation nor located in permanent buildings but which are, nevertheless, used as living quarters at the time of the census. Caves, other natural shelters and mobile housing units such as trailer, barge, boat, etc., fall within this category.

7. **Hotel, lodging house, dormitory, etc.** – This group comprises permanent structures which provide lodging and/or meals on fee basis. Hotels, motels, inns, boarding houses, dormitories, pensions and lodging houses fall within this category.
8. **Institutional (hospital/convent/school dormitory/penal institution, etc.)** – a building intended for persons confined to receive medical, charitable, or other care treatment such as jails and penal colonies, and other buildings like convents, school dormitories, etc.
9. **Other collective living quarters** – any structure or shelter which does not fall under items 7 and 8. Included in this category are camps which are defined sets of

## **EXPLANATORY TEXT**

premises originally intended for the temporary accommodation of persons with common activities or interests like military camps, and other camps established for the housing of workers in mining, agriculture, public works or other types of enterprises.

### **DWELLING UNIT**

A dwelling unit is a separate and independent place of abode intended for habitation by one household, or one not intended for habitation but occupied as living quarters by a household at the time of the census.

Dwelling units counted included those that are occupied and those that are unoccupied.

### **CONSTRUCTION MATERIALS OF ROOF**

The kinds of materials used are as follows:

1. Galvanized iron/aluminum
2. Tile/concrete/brick/stone
3. Asbestos
4. Cogon/nipa
5. Makeshift/salvaged materials
6. Others (anahaw, etc.)

### **CONSTRUCTION MATERIALS OF OUTER WALLS**

The kinds of materials may be any of the following:

1. Galvanized iron/aluminum
2. Tile/concrete/brick/stone
3. Wood/plywood
4. Mixed tile/concrete/brick/stone and wood/plywood
5. Asbestos
6. Bamboo/sawali
7. Cogon/nipa
8. Makeshift/salvaged materials
9. Others (anahaw, etc.)

If the roof or outer walls are constructed of two or more materials the material most used was reported.

### **YEAR BUILDING WAS BUILT**

This refers to the year when the extent of construction permitted occupancy for living purposes. The year reported was the particular year when the occupancy started or when the building was fit for occupancy even if not occupied.

### **NUMBER OF ROOMS IN THE DWELLING UNIT**

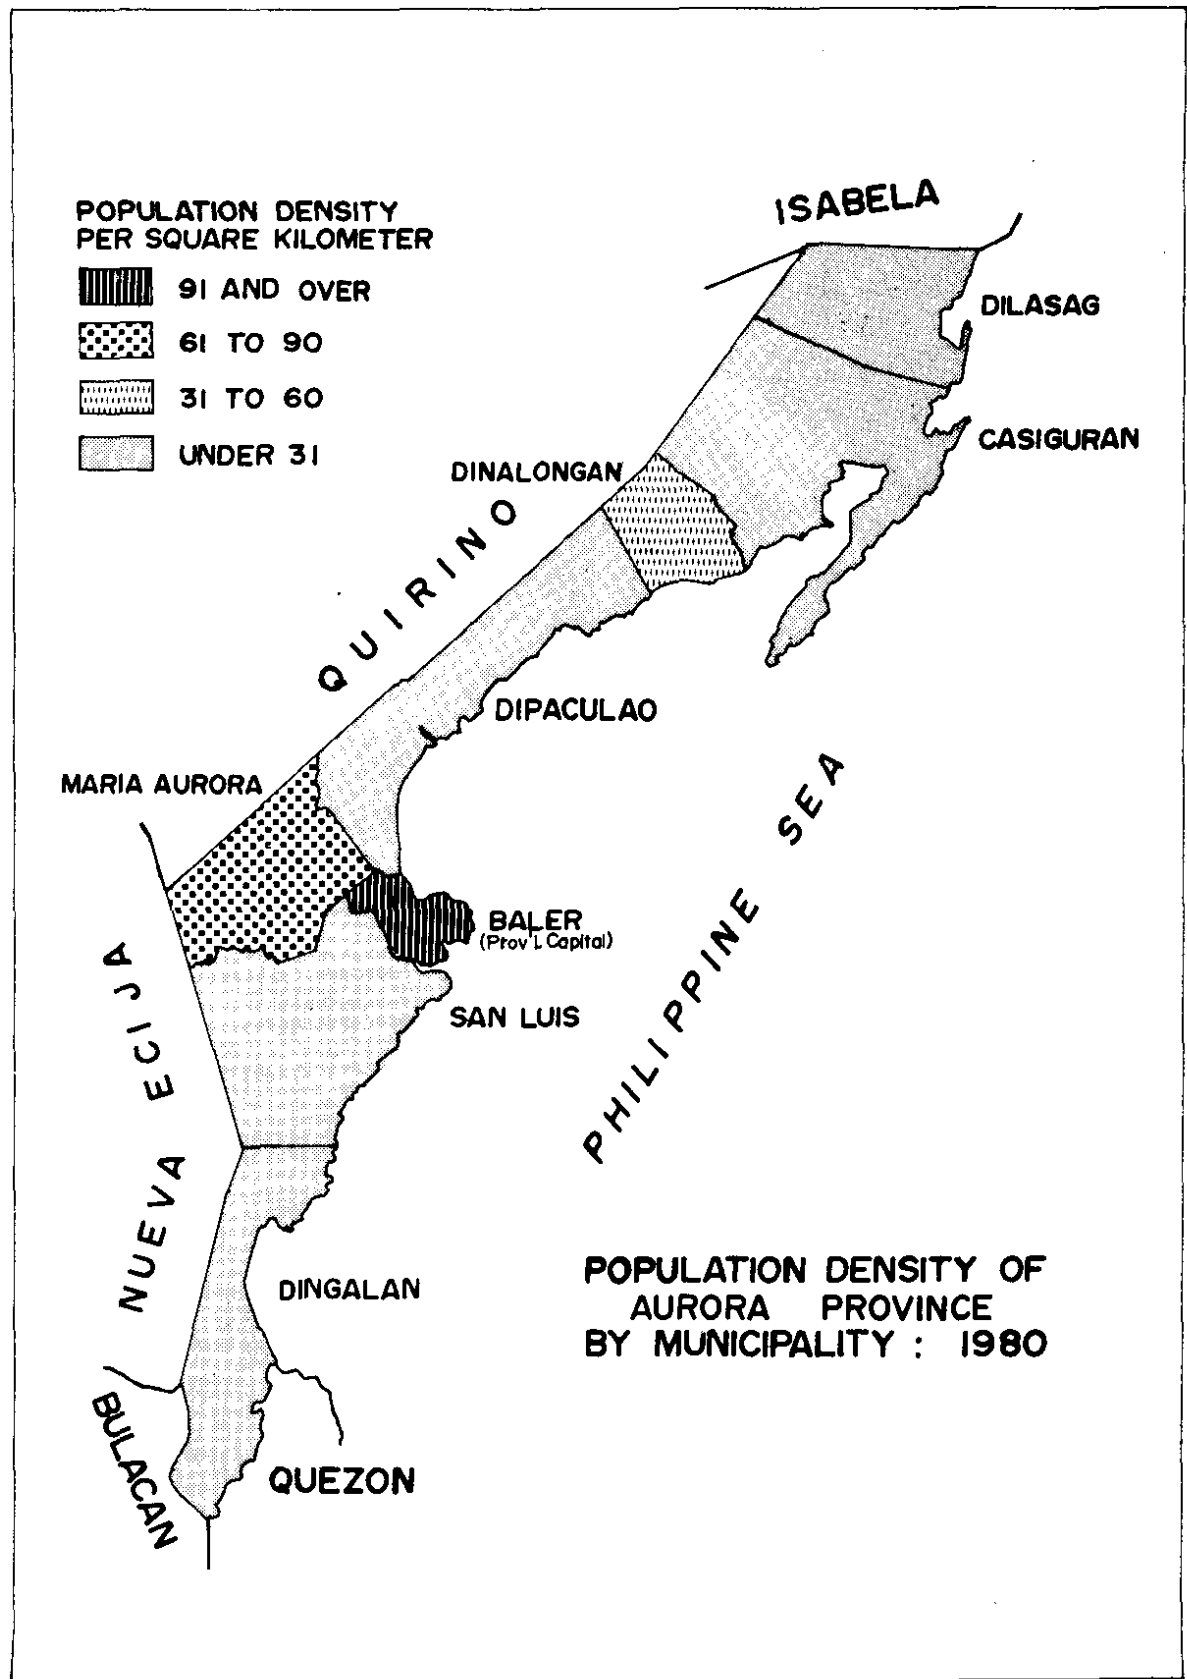

A room is defined as a space in a dwelling unit or other living quarters enclosed by walls reaching from the floor to the ceiling or roof covering, or at least to a height of 1.8 meters which are of permanent or semi-permanent structure, of a size large enough to hold a bed for an adult or at least has an area of 3 square meters.

## **EXPLANATORY TEXT**

The total number of rooms reported included the bedrooms, dining room, living room, kitchen, roofed veranda, library or music room and other separate spaces used or intended for dwelling purposes, as long as they meet the criteria of walls and floor space. Passageways, lobbies, bathrooms and toilets or rooms used exclusively as store/shop/clinic/grains storage (nobody sleeps therein) were not counted as rooms even if they meet the criteria.

## **FLOOR AREA OF DWELLING UNIT**

This refers to the space enclosed by the exterior walls of the dwelling unit, or the space measured inside the outer walls of the spaces that are counted as rooms. In case of several floors, the area of each floor in square meters was taken and added together to get the total floor area of the dwelling unit. Areas of floor spaces that are not considered rooms such as bathroom, toilet, storeroom, passageway were excluded in determining the floor area.

## **Aurora: A Brief Analysis**

Aurora, formerly a subprovince of Quezon, became the 73rd province of the country on November 21, 1978 by virtue of Batas Pambansa Blg. 7. In commemoration of the birth anniversary of the late President Manuel L. Quezon, the new province was inaugurated on August 19, 1979.

The northernmost tip of the province meets the Isabela boundary while its southernmost portion ends near Dingalan Bay. On the northwest is Quirino; on the southwest, Bulacan; on the southeast, Quezon and on the west, Nueva Ecija. The province lies in the typhoon belt of the country. Exposed to the Philippine Sea on the east, Aurora is frequently visited by typhoons.

The provincial terrain is rugged and the coastline rocky and almost inaccessible. In some places, timberlands rise sharply from bare cliffs. In spite of the mountainous terrain, however, Aurora is self-sufficient in rice and rich in forest resources such as lumber, rattan and almaciga. Its major export products are logs and copra.

Eight municipalities compose the province. Baler, the provincial capital and birthplace of President Quezon, is approximately 107 kilometers from Cabanatuan City and 6 hours' ride from Manila.

### **POPULATION**

The 1980 census reported Aurora's population at 107,145 (55,277 males and 51,868 females). In terms of population size the province ranked number 68 among the 73 provinces of the country. Its annual geometric growth rate was placed at 3.54 percent from 1975 to 1980.

One of the 11 provinces in Region IV, Aurora has a land area of 3,239.5 square kilometers. Its population density moved up from 27.8 in 1975 to 33.1, or an increase of 5.3 persons per square kilometer within a span of five years. It remains one of the least densely populated provinces in the country, ranking 68th in 1970 and 69th both in 1975 and 1980.

Aurora is still predominantly rural although the proportion of rural residents declined 3.45 percentage points, from 79.13 percent in 1975 to 75.68 percent in 1980. Less than one-fourth or 24.32 percent of the total population live in urban areas, or a corresponding increase of 3.45 percentage points over the previous figure.

## A BRIEF ANALYSIS

**TABLE A – URBAN-RURAL POPULATION BY SEX,  
AURORA: 1975 AND 1980**

Area Classification and Sex	1980		1975	
	Number	Percent	Number	Percent
Total	<u>107,145</u>	<u>100.00</u>	<u>90,060</u>	<u>100.00</u>
Male	55,277	51.59	46,970	52.16
Female	51,868	48.41	43,090	47.84
Urban	<u>26,062</u>	<u>24.32</u>	<u>18,798</u>	<u>20.87</u>
Male	13,260	12.37	9,652	10.72
Female	12,802	11.95	9,146	10.15
Rural	<u>81,083</u>	<u>75.68</u>	<u>71,262</u>	<u>79.13</u>
Male	42,017	39.22	37,318	41.44
Female	39,066	36.46	33,944	37.69

## A BRIEF ANALYSIS

The sex ratio (number of males for every 100 females) of the province dropped from 109.00 in 1975 to 106.57 in 1980. The sex ratio is more pronounced in the rural areas (107.55) than in the urban areas where there are 103.58 males for every 100 females.

A large number of the rural male and female population are under 5 years of age. From this age group to the 80 years old and over, the male and female population in rural areas, respectively, decrease as each age group grows older. A graph of the relationship results in a pyramid-like structure with the broad base formed by children under 5 years of age and the apex, by adults 80 years old and over. On the other hand, the urban male and female population diverge from the pyramid structure. Among the urban males, the 55-59 years of age outnumber those in the 50-54 age bracket and the 65-69, those in the 60-64 age group. Meanwhile, urban females below 5 years are outnumbered by those aged 5-9 and those 75-79 years, by those aged 80 and over (Figure 1).

### AGE COMPOSITION

Aurora has a high proportion of the younger age group (0-14 years) although a decrease of 1.18 percentage points is observed, from 47.88 percent in 1975 to 46.70 percent in 1980. The productive age group (15-64 years), however, has the biggest proportion, constituting 50.74 percent of the total provincial population, or an increase of 1.03 percentage points. The older age group (65 years and over), likewise, increased by 0.15 percentage point between 1975 and 1980.

Of the total urban population, 45.19 percent are below 15 years old, 51.68 percent belong to the productive age bracket and only 3.13 percent are 65 years old and over. Comparatively, 47.19 percent of the rural residents are 0-14 years of age; 50.44 percent, 15-64 and 2.37 percent, 65 years and over (Table 3).

Below are comparative figures showing the age composition of the population in two censal years:

**TABLE B – AGE COMPOSITION OF THE POPULATION,  
AURORA: 1975 AND 1980**

Age Composition	1980		1975	
	Number	Percent	Number	Percent
Total	<u>107,145</u>	<u>100.00</u>	<u>90,060</u>	<u>100.00</u>
0-14 years	50,041	46.70	43,125	47.88
15-64 years	54,364	50.74	44,765	49.71
65 years and over	2,740	2.56	2,170	2.41

The median age of the population is 16 years; half of the population are below 16 years old and the other half, above this age.

With an increased percentage of persons in the productive ages, the dependency ratio dropped from 101.18 in 1975 to 97.09 in 1980. The dependency ratio was markedly lower in the urban than in the rural areas – 93.51 and 98.27 dependents, respectively, for every 100 persons in the working or productive ages.

## A BRIEF ANALYSIS

### MARITAL STATUS

Since 1975, married persons comprised the biggest proportion of the population 10 years old and over. As observed, the proportion of married persons slightly increased from 50.25 percent in 1975 to 51.76 percent in 1980. Never married persons, on the other hand, decreased by 2.15 percentage points, from 46.23 percent to 44.08 percent. Slight increases are noted in the following categories: 0.48 percentage point for the widowed, 0.14 percentage point for the divorced or separated, and 0.02 percentage point for those whose marital status were not reported.

Almost half of the urban population were married (49.34%) compared to 52.56 percent of the rural population. Consequently, 45.43 percent of the urban dwellers were single while their rural counterparts made up 43.64 percent.

Less than half (47.21%) of the male population 10 years old and over were never married while 50.26 percent were married. In contrast, married females comprised more than half of the female population (53.36%) whereas the never married made up 40.73 percent. Only 2.17 percent of the males were widowed while the proportion of widowed females (5.13%) more than doubled that of the males. More females than males were, likewise, divorced or separated (0.66% for the females and 0.34% for the males). A negligible percentage of the males (0.02%) and females (0.12%) did not report their marital status (Table 4).

FIG. 2 – MARITAL STATUS OF THE POPULATION 10 YEARS OLD AND OVER BY SEX, AURORA: 1980

## A BRIEF ANALYSIS

**TABLE C — POPULATION 10 YEARS OLD AND OVER BY SEX AND  
MARITAL STATUS, AURORA: 1975 AND 1980**

Sex and Marital Status	1980		1975	
	Number	Percent	Number	Percent
Both Sexes	<u>72,105</u>	<u>100.00</u>	<u>59,335</u>	<u>100.00</u>
Never married	31,787	44.08	27,430	46.23
Married	37,320	51.76	29,814	50.25
Widowed	2,593	3.60	1,849	3.12

Widowed	1,784	5.13	1,265	4.51
Divorced/separated	228	0.66	127	0.45
Not stated	42	0.12	14	0.05

### HIGHEST GRADE COMPLETED

Persons with elementary education maintained a marked predominance over those in other categories, but dropped from 66.82 percent in 1975 to 65.59 percent of the private household population 7 years old and over in 1980. On the other hand, those who reached the secondary and college levels increased by 2.71 percentage points to 20.63 percent and 1.34 percentage points to 4.62 percent, respectively. Academic degree holders, likewise, rose by 0.35 percentage point to 2.08 percent. Consequently, those who had no formal schooling dropped from 8.97 percent to 6.59 percent and those who did not disclose their educational attainment, from 1.28 percent to 0.49 percent.

Of those who had elementary training, only 31.60 percent completed the first to third grade; 17.02 percent attained the fourth grade and 14.69 percent, the fifth grade. More than one-third, or 36.69 percent graduated from the sixth or seventh grade. Of those who reached the secondary level, 69.48 percent reached anywhere from the first to third year while 30.52 percent graduated from fourth year. Majority of the college undergraduates (81.87%) finished the lower collegiate years (first to third year) and only 18.13 percent completed the fourth or higher year (Table 5).

## A BRIEF ANALYSIS

The distribution of the private household population 7 years old and over according to highest grade completed is shown in the accompanying table:

**TABLE D – PRIVATE HOUSEHOLD POPULATION 7 YEARS OLD AND OVER  
BY HIGHEST GRADE COMPLETED, AURORA: 1975 AND 1980**

Highest Grade Completed	1980		1975	
	Number	Percent	Number	Percent
Total	<u>81,958</u>	<u>100.00</u>	<u>67,585</u>	<u>100.00</u>
No grade completed	5,404	6.59	6,065	8.97
Elementary	53,755	65.59	45,158	66.82
High school	16,906	20.63	12,113	17.92
College	3,790	4.62	2,217	3.28
Academic degree holder	1,703	2.08	1,169	1.73
Not stated	400	0.49	863	1.28

**FIG. 3 – PRIVATE HOUSEHOLD POPULATION 7 YEARS OLD AND OVER  
BY HIGHEST GRADE COMPLETED, AURORA: 1980**

## A BRIEF ANALYSIS

### LITERACY

Aurora had a high literacy rate with 87.50 percent of the private household population aged 10 and over, able to read and write. The literacy rate in the urban areas (92.22%) was considerably higher than the rural rate (85.94%). Literacy rate was higher for males (88.23%) than for females (86.73%). Males registered literacy rates of 92.76 percent in urban and 86.76 percent in rural areas, compared to 91.66 percent and 85.06 percent, respectively, for the females (Table 6).

FIG. 4 – PERCENTAGE LITERACY OF PRIVATE HOUSEHOLD POPULATION  
10 YEARS OLD AND OVER BY SEX, URBAN-RURAL, AURORA: 1980

## A BRIEF ANALYSIS

### LANGUAGE OR DIALECT

Most of the residents of Aurora use Tagalog as their medium of communication. Of the total private households, 49.46 percent speak this dialect while 39.24 percent speak Ilocano. Less than 600 households, or 3.12 percent speak Bicol; 0.46 percent, Lineyte-Samamon (Waray); 0.37 percent, Kangkanai; 0.29 percent, Cebuano and another 0.29 percent, Ifugao. The rest of the households speak one of several other languages and dialects reported in the province. Both the urban and rural areas are predominated by Tagalog-speaking households, 59.98 percent and 46.09 percent, respectively. Ilocano is spoken by 30.22 percent in the urban areas and 42.13 percent in the rural areas (Table 7).

### GAINFUL OCCUPATION

It should be recalled that in previous censuses Aurora was part of Quezon province, thus no comparison can be made for its data on gainful occupation and industry. Since tabulations on these items are on a provincial level only, it is not possible to segregate such data for Aurora prior to 1980.

Of the 57,004 private household population 15 years old and over, 48.18 percent are engaged in various occupations, while the majority (51.82%) are in non-gainful activities such as housekeepers, students, retired persons, etc.

## A BRIEF ANALYSIS

Of the total number of gainful workers, agricultural, animal husbandry and forestry workers, fishermen and hunters contribute the biggest number of workers (66.43%). Production and related workers, transport equipment operators and laborers, the second biggest group, contribute only 15.29 percent. Professional, technical and related workers trail far behind at 4.48 percent followed closely by service workers at 4.17 percent. Sales workers make up 3.54 percent and clerical and related workers, 2.38 percent. Administrative, executive and managerial workers compose a negligible percentage (0.41%) while workers with unclassifiable occupations registered 3.30 percent (Table 8).

The distribution of workers engaged in various occupations are reflected in the following table:

**TABLE E – GAINFUL WORKERS 15 YEARS OLD AND OVER  
BY MAJOR OCCUPATION GROUP, AURORA: 1980**

Major Occupation Group	1980	
	Number	Percent
Total	<u>27,465</u>	<u>100.00</u>
Professional, technical and related workers	1,231	4.48
Administrative, executive and managerial workers	113	0.41
Clerical and related workers	654	2.38
Sales workers	971	3.54
Service workers	1,146	4.17
Agricultural, animal husbandry and forestry workers, fishermen and hunters	18,246	66.43
Production and related workers, transport equipment operators and laborers	4,198	15.29
Workers not classifiable by occupation	906	3.30

## INDUSTRY

Agriculture, fishery and forestry, the dominant industry group in Aurora, provide means of livelihood to 70.73 percent of the total gainful workers 15 years old and over. A high percentage of the agricultural workers derive their income from agricultural crop production (87.94%); 6.45 percent are into forestry and 4.47 percent, in fishery. Community, social and personal services, the second biggest industry group, employ 11.42 percent of the gainful workers whose three principal concerns are in personal and household services

## A BRIEF ANALYSIS

(34.69%), education services (27.84%), and public administration and defense (24.20%). Although ranking third, manufacturing contributes only 4.17 percent. The two leading sources of jobs in this industry group are the manufacture of textile, wearing apparel and leather (61.55%) and of wood and wood products including furniture and fixtures (22.32%). Wholesale and retail trade make up 3.90 percent; transportation, storage and communication, 3.58 percent; construction, 2.11 percent and financing, insurance, real estate and business services, 1.06 percent. Electricity, gas and water constitute less than one percent (0.08%); mining and quarrying, only 0.04 percent and activities not adequately defined, 2.91 percent (Table 9).

## MIGRATION

Of the 88,681 private household population 5 years old and over, 90.87 percent were residents of the same municipality where they had lived on May 1, 1975. Of the 8,096 individuals or 9.13 percent who had a different place of residence in 1975, 35.71 percent moved to another municipality within their home province while 62.30 percent moved

## X A BRIEF ANALYSIS

outside provincial boundaries. Only a small proportion were residing in foreign countries (1.99%). In two migratory movements, there were more males than females — larger by about 7.50 percentage points in the inter-municipality migration and by 6.90 percentage points among migrants from other provinces. Among former residents of foreign lands, however, the females outnumbered the males (62.73% against 37.27%). It is observed that 67.70 percent of those who came from foreign lands migrated to rural areas (Table 10).

### TYPE OF BUILDING

Most (93.98%) of the 18,842 households in Aurora are occupying single houses. The rest live in either duplex (0.59%), apartment/accesoria/condominium/row house, etc. (0.65%), improvised structures such as barong-barong (4.13%), commercial/industrial/agricultural buildings (0.21%), other housing units such as natural shelter or boat (0.14%), hotel, lodging house, dormitory, etc. (0.03%), institutional buildings like hospital, convent, school dormitory, etc. (0.03%) or other collective living quarters (0.24%).

Slightly over three-fourths (75.40%) of the households occupying single houses are found in rural areas while the remaining 24.60 percent are in urban areas. Higher proportions of households dwelling in duplex and apartment/accesoria/condominium/row house, etc. are, likewise, located in the rural areas (54.95% for the former and 83.61% for the latter). The corresponding figures for urban households living in these types of buildings are 45.05 percent and 16.39 percent (Table 1).

**TABLE F — NUMBER OF HOUSEHOLDS IN OCCUPIED DWELLING UNITS  
BY TYPE OF BUILDING, AURORA: 1980**

Type of Building	1980	
	Number	Percent
Total	<u>18,842</u>	<u>100.00</u>
Single house	17,708	93.98
Duplex	111	0.59
Apartment/accesoria/condominium/ row house/etc.	122	0.65
Improvised (barong-barong)	779	4.13
Commercial/industrial/agricul- tural	40	0.21
Other housing unit: natural shelter, boat, etc.	26	0.14
Hotel, lodging house, dormitory, etc.	5	0.03
Institutional (hospital, con- vent, school dormitory, etc.)	6	0.03
Other collective living quarters (military camp, etc.)	45	0.24

## A BRIEF ANALYSIS

### TYPE OF OCCUPANCY

Table 1 also shows that 87.32 percent of the total households are owners of the dwelling units they occupy. The rest of the households are either tenants/lessees (3.89%), subtenants/sublessees (0.45%) or rent-free occupants (8.34%).

Both the urban and the rural areas have high proportions of households belonging to the owner-occupant category (84.04% and 88.37%, respectively). On the other hand, the proportion of tenant/lessee households is higher in urban (4.79%) than in rural areas (3.60%). The same holds true for households falling under the rent-free type of occupancy — 10.96 percent of the total urban households compared to 7.51 percent of the total households in rural areas.

### CONSTRUCTION MATERIALS OF ROOF AND OUTER WALLS

More than three-fifths of the households (60.13%) in Aurora occupy dwelling units constructed with roof of cogon or nipa while 35.84 percent reside in units with roof of galvanized iron/aluminum. Few households live in dwelling units with roof of other materials such as anahaw (3.15%); of tile, concrete, brick or stone (0.58%); of makeshift or salvaged materials (0.27%) or of asbestos (0.03%). Households occupying dwelling units with roof of cogon or nipa total 49.73 percent in urban areas and 63.47 percent in rural areas. Consequently, a higher proportion of the urban households dwell in units roofed with galvanized iron/aluminum (49.94%) compared to 31.32 percent of the rural households.

By type of construction materials of outer walls, 41.86 percent of the households live in dwelling units built with walls of wood or plywood; 22.53 percent dwell in units with outer walls of cogon or nipa; 12.00 percent, of mixed tile, concrete, brick or stone and wood or plywood; 11.37 percent, of bamboo or sawali; 5.92 percent, of other materials (anahaw, etc.); 3.29 percent, of makeshift or salvaged materials; 2.32 percent, of tile, concrete, brick or stone; 0.57 percent, of galvanized iron or aluminum and only 0.14 percent, of asbestos. Most of the households in both the urban (39.08%) and the rural areas (42.76%) reside in dwelling units built with walls of wood or plywood while those in units with walls of cogon or nipa comprise 22.13 percent and 22.66 percent, respectively. More than one-fifth (20.79%) of the urban households occupy units with walls of mixed tile, concrete, brick or stone and wood or plywood while their rural counterparts make up 9.17 percent. The proportion of households in units with walls of bamboo or sawali is slightly higher in rural (11.84%) than in urban areas (9.90%). However, 11.02 percent of the rural households live in units with walls of makeshift or salvaged and other materials as compared to 3.59 percent of the urban households (Table 2).

### YEAR BUILT

More than half, or 55.20 percent of the households live in dwelling units erected between 1976-1980; 25.31 percent reside in units constructed during 1971-1975; 12.97 percent, between 1961-1970 and 4.67 percent, 1951-1960. Only 1.19 percent occupy structures built during 1942-1950 and 0.66 percent, 1941 or earlier (Table 2).

### FLOOR AREA OF DWELLING UNIT

Over three-fifths of the total households (61.97%) in Aurora occupy dwelling units with floor area of less than 30 square meters. Households living in 30-49 square-meter dwelling units constitute 27.19 percent; in 50-69 square-meter units, 5.54 percent and in

## A BRIEF ANALYSIS

70-99 square-meter units, 2.60 percent. Spacious dwelling units with floor area ranging from 100 square meters and over are occupied by 2.70 percent (Table 3).

### TENURE OF OWNER-OCCUPANT WITH RESPECT TO THE LAND

As noted in Table 4, out of 16,452 households that own their dwelling units 69.74 percent also own the land where the structures are erected. The rest of the households are either lessee or sublessee (10.97%), farm lessee or agricultural tenant of landowner (4.34%), of other legal tenure (4.00%), or have no tenure at all like squatters (10.95%).

### SOURCE AND USE OF WATER SUPPLY

Most of the households in the province depend on tubed or piped shallow and deep wells as sources of water supply for drinking (34.70% and 29.05%, respectively), for kitchen use (33.93% and 27.68%) and for washing clothes (25.00% and 22.65%). A considerable number obtain their drinking water from the faucet, community water system (17.02%); 7.91 percent, from dug well; 7.77 percent, spring and 3.55 percent, from lake, river, stream, etc. The proportions of households who obtain their water supply for kitchen use from the same sources slightly vary: 16.11 percent, faucet, community water system; 8.17 percent, spring; 7.64 percent, dug well and 6.47 percent, lake, river, stream, etc. Over one-fourth, or 25.61 percent of the households still depend on lake, river, stream, etc. for washing clothes; 14.85 percent, on the faucet, community water system; 6.52 percent, spring and 5.32 percent, dug well. A negligible 0.05 percent use rain water for washing clothes.

Among the urban households the faucet, community water system is a common source of water supply for drinking (37.31%), for kitchen use (36.43%) and for washing clothes (35.53%). Water from tubed or piped shallow well is used by 32.54 percent, 32.76 percent and 29.74 percent, respectively. Urban households utilizing the tubed or piped deep well comprise 23.22 percent, 23.33 percent and 19.18 percent, for the respective uses.

Rural households, on the other hand, depend mainly on water from tubed or piped shallow well for drinking (35.40%) and for kitchen use (34.31%). For laundering clothes, however, the rural folks still utilize lake, river, stream, etc. (31.26%). Another main source of water supply is the tubed or piped deep well (for drinking, 30.92%; for kitchen use, 29.07% and for washing clothes, 23.76%). Nearly the same proportions of households depend on the faucet, community water system (10.51%) and spring (10.12%) for their drinking water, for kitchen use (9.60% and 10.61%, respectively) and for washing clothes (8.22% and 8.16%). Water from dug well is used by 8.47 percent, 8.07 percent and 5.05 percent, respectively. Lake, river, stream, etc. also provide water for drinking to 4.58 percent and for kitchen use, 8.34 percent (Table 6).

### KIND OF LIGHTING FACILITIES

A great majority of the households (91.81%) in Aurora still use kerosene for lighting their dwelling units. Household electrification remains at a low level. Users of electricity constitute only 3.45 percent while 3.05 percent use liquefied petroleum gas (LPG). Very few households use oil (0.22%) and other kinds of lighting facilities (1.47%). Kerosene is commonly used by both urban and rural households although the proportion is higher among the latter (92.45%) than among the former (89.81%). As expected, urban areas have greater percentages of electricity (6.67%) and oil (0.24%) consumers as compared to rural areas with only 2.42 and 0.22 percent, respectively. On the other hand, the proportion of

## A BRIEF ANALYSIS

households using **LPG** is higher in rural (3.08%) than in urban areas (2.95%). Users of other kinds of lighting facilities constitute 0.33 percent of the urban households and 1.83 percent for their rural counterparts (Table 5).

### COOKING FUEL

Wood or charcoal is used as cooking fuel by majority of the households (92.88%). The remaining 7.12 percent use kerosene (4.24%), liquefied petroleum gas (2.05%), electricity (0.13%) or other kinds (0.70%). Both urban and rural households registered high proportions of wood or charcoal users (88.63% for the former and 94.25% for the latter). The proportion of households using kerosene differs between the two areas — 5.90 percent for the urban and 3.71 percent for the rural sector. More urban (4.92%) than rural (1.12%) households use liquefied petroleum gas (Table 8).

### TOILET FACILITIES

As seen in Table 7, almost one-third or 31.65 percent of the households use the open pit type of toilet facility; 26.54 percent, the closed pit type (antipolo, etc.); 19.92 percent, the water-sealed with other depository type; 13.41 percent, water-sealed with sewer or septic tank and 0.62 percent, other types (pail system, etc.). Less than one-tenth (7.86%) of the households lack toilet facilities.

More than one-third of the urban households (35.05%) use the water-sealed with sewer or septic tank toilet facility; 19.99 percent, the closed pit; 19.24 percent, water-sealed with other depository; 17.52 percent, the open pit and 0.66 percent, other types. Among the rural folks, the open pit is the most common type used (36.19%), followed by the closed pit with 28.64 percent; the water-sealed with other depository, 20.14 percent and the water-sealed with sewer or septic tank, 6.47 percent. A negligible percentage (0.60%) use other types. Households without toilet facilities constitute 7.54 percent in the urban and 7.96 percent in the rural areas.

### OWNERSHIP OF RADIO, TELEVISION SET AND REFRIGERATOR/FREEZER

Almost two-thirds (63.43%) of the households in Aurora own radios; 1.46 percent possess television sets while 1.23 percent have refrigerators or freezers. Of the 4,573 urban households, 66.46 percent own radios; 3.08 percent have television sets and another 3.08 percent, refrigerators or freezers. Among the rural households, 62.46 percent have radios. Very few among them own television sets (0.94%) and refrigerators or freezers (0.63%). (See Table 9.)

HOUSING CENSUS QUESTIONS (Encircle Code or Enter Appropriate Code If Required.)									
H-1 to H-4 are to be asked only of the first sample household in every building (Repeat entries for other sample households in this building.)									
H-1 What type is this building/house?		H-2 What construction material is the roof made of?		H-3 What construction material are the outer walls made of?		H-4 When was this building/house built?		Transcribe encircled codes here.	
22 1 Single House 2 Duplex 3 Apartment/Accesoria/Condominium/Row house/etc. 4 Improved (barong-barong) 5 Commercial/Industrial/Agricultural 6 Other housing unit: natural shelter, boat, etc. 7 Hotel, lodging house, dormitory, etc. 8 Institutional (hospital/convent/school dormitory/penal institution) 9 Other collective living quarters (refugee camp, logging camp, military camp, etc.)		23 1 Galvanized Iron/Aluminum 2 Tile/Concrete/Brick/Stone 3 Asbestos 4 Cogon/Nipa 5 Makeshift/Salvaged Materials 6 Other (anahaw, etc.)		24 1 Galvanized Iron/Aluminum 2 Tile/Concrete/Brick/Stone 3 Wood/Plywood 4 Mixed Tile/Concrete/Brick/Stone and Wood/Plywood 5 Asbestos 6 Bamboo/Sawali 7 Cogon/Nipa 8 Makeshift/Salvaged Materials 9 Other (anahaw, etc.)		25 1 1980 2 1979 3 1978 4 1977 5 1976 6 1971 - 1975 7 1961 - 1970 8 1951 - 1960 9 1942 - 1950 0 1941 or earlier		H-1 H-2 H-3 H-4 22 23 24 25	
H-5 and H-6 are to be asked of the sample household in the dwelling unit. (Repeat entries for other sample households in this dwelling unit.)									
H-5 How many rooms are in this dwelling unit (excluding bathroom, toilet, storeroom, passageway)?		H-6 What is the floor area of this dwelling unit in square meters?							
26 1 Room 2 Rooms 3 Rooms 4 Rooms 5 Rooms or more		1 Less than 30 sq. meter Specify: 6 150-199 sq. meters 2 30-49 sq. meters 7 200-249 sq. meters 3 50-69 sq. meters 8 250-299 sq. meters 4 70-99 sq. meters 9 300 sq. meters & over 5 100-149 sq. meters Specify: sq. m.							
H-7 to H-13 should be answered by all sample households.									
H-7 How does this household occupy this dwelling unit?		H-8 (If household owns this dwelling unit) What is your tenure with respect to the land?		H-9 What kind of lighting do you use?		H-10 What is the main source of your water supply - (Encircle only one for each use.)			
28 1 Owner 2 Tenant/Lessee 3 Sub-tenant/sublessee 4 Rent-free		29 1 Owner 2 Lessee or sublessee 3 Farm lessee/agricultural tenant of landowner 4 Other legal tenure 5 No tenure (squatter, etc.) 6 Not applicable		30 1 Electricity 2 Kerosene 3 Liquefied Petroleum Gas (LPG) 4 Oil (vegetable, animal) 5 Other		For Kitchen Use? For Drinking? For Washing Clothes? Source of Water Supply 31 01 01 01 01 01 01 01 01 01 02 02 02 02 02 02 02 02 02 02 03 03 03 03 03 03 03 03 03 03 04 04 04 04 04 04 04 04 04 04 05 05 05 05 05 05 05 05 05 05 06 06 06 06 06 06 06 06 06 06 07 07 07 07 07 07 07 07 07 07 08 08 08 08 08 08 08 08 08 08 09 09 09 09 09 09 09 09 09 09 10 10 10 10 10 10 10 10 10 10 11 11 11 11 11 11 11 11 11 11 12 12 12 12 12 12 12 12 12 12 13 13 13 13 13 13 13 13 13 13 14 14 14 14 14 14 14 14 14 14 15 15 15 15 15 15 15 15 15 15			
H-11 What kind of fuel do you use most of the time for cooking?		H-12 What kind of toilet facilities do you use?		H-13 Do you have these appliances in working condition?		H-14 What is the main source of your water supply - (Encircle only one for each use.)			
37 1 Electricity 2 Kerosene 3 Liquefied Petroleum Gas (LPG) 4 Wood, charcoal 5 Other		38 1 Water-sealed, sewer/septic tank, used exclusively by household 2 Water-sealed, sewer/septic tank, shared with other households 3 Water-sealed, other depository, used exclusively by the household 4 Water-sealed, other depository, shared with other households 5 Closed pit (antipolo, etc.) 6 Open pit 7 Other (pail system, etc.) 8 None		39 1 a. ## CERTIFICATION

I HEREBY CERTIFY that the data set forth in this form were personally obtained by me in accordance with the rules and regulations promulgated by the National Census and Statistics Office.

Name of person accomplishing this form  
(Printed Name & Sign)  
Title \_\_\_\_\_  
Date \_\_\_\_\_ 1980

PERSONS TO BE ENUMERATED AS MEMBERS OF COLLECTIVE HOUSEHOLDS

1. HOTELS, LODGING HOUSES, DORMITORIES, ETC.

- a. Proprietor, manager and employees living in the establishment, except those living therein with their own families and those who usually go home to their respective families at least once a week.
- b. Permanent lodgers/boarders (those who have stayed or expect to stay for one year or longer) and those temporary lodgers/boarders who have stayed for six months or longer as of May 1, 1980 or have been away from their own families for the same period. However, exclude those who usually go home at least once a week.
- c. Lodgers/boarders who are residents of the Philippines and who have been in the Philippines for one year or longer as of May 1, 1980, or expect to stay in the Philippines for one year or longer. However, exclude those who have temporary place of residence elsewhere in the Philippines to where they usually go home. Exclude also diplomatic representatives or UN, ILO or USAID officials who, like diplomatic representatives, are subject reassignment to other countries after their tour of duty in the Philippines, and members of their families.

2. HOSPITALS AND NURSES' HOMES

- a. All patients, including those just confined, in mental hospitals, leprosaria or leper colonies, pavilions of tuberculosis sanatoria where patients stay more or less permanently, and rehabilitation centers for drug addicts.
- b. Patients who have been confined for six months or longer as of May 1, 1980 in other kinds of hospitals and in wards for temporary confinement in tuberculosis sanatoria.
- c. Nurses in nurses' homes who do not usually go home at least once a week.
- d. Staff members and employees living in hospitals/nurses' homes, except those living therein with their families and those who usually go home at least once a week.

3. WELFARE INSTITUTIONS (Homes for the Aged and Infirm, Orphanage, Boys' Town, etc.)

- a. All inmates or wards, including those just confined.
- b. Staff members and employees living in the institutions, except those living therein with their families and those who usually go home at least once a week.

4. CORRECTIVE AND PENAL INSTITUTIONS

- a. All prisoners in national prisons and reformatories (welfareville).
- b. Prisoners and detainees in provincial or city/municipal jails who have been continuously confined for six months or longer, including confinement elsewhere, as of May 1, 1980, or those whose sentence is for six months or longer even if the sentence is on appeal.
- c. Staff members and employees living in the institutions except those living therein with their own families and those who usually go home at least once a week.

5. CONVENTS, NUNNERIES, SEMINARIES, AND BOARDING SCHOOLS

- a. Monks, priests, ministers, nuns, seminarians etc. However, priests or ministers of sects other than the Roman Catholic Church who live in the convent or house close to church or chapel with their own families are to be excluded (private households).
- b. Students in boarding schools (schools where students are required to stay in the school campus).
- c. Staff members, employees and helpers living in the premises, except those living therein with their own families and those who usually go home at least once a week.

6. MILITARY CAMPS AND STATIONS (PC, Army, Air Force and Navy): PMA

- a. Officers and enlisted men/draftees, except those who live in the premises with their own families and those who usually sleep most nights with private households or in hotels, lodging places or dormitories. Include those belonging to the unit in the camp or station who are away on military operation or mission or aboard naval vessels, except those whose families are living in the camp or station (their own families will report them).
- b. PMA cadets and trainees whose training is for six months or longer.
- c. Detainees who have been continuously confined for six months or longer, including confinement elsewhere, as of May 1, 1980.
- d. Civilian employees living in the camp or station, except those living therein with their own families and those who usually go home at least once a week.

7. LOGGING, MINING AND CONSTRUCTION/PUBLIC WORKS CAMPS, PLANTATIONS AND AGRICULTURAL/FISHERIES EXPERIMENTAL OR BREEDING STATIONS, ETC.

- a. Proprietor, manager, contractor and employees who do not live with their families in the premises and are supplied lodging (beddings, etc.) and/or meals by the company, firm, contractor or agency, except those who usually go home at least once a week.

8. OCEAN-GOING AND INTERISLAND/COASTAL VESSELS OR DEEP-SEA FISHING VESSELS

- a. Filipino crew members of ocean-going vessels (whose own families live in the Philippines) at port as of 12:01 A.M. May 1, 1980, except those who usually go home to their own families in the Philippines at least once every six months.
- b. Any crew member of interisland/coastal vessel or deep-sea fishing vessel at port on any day during the enumeration, if the crew member has no home other than the vessel.

9. REFUGEE CAMPS

- a. Filipino citizens working and living inside the camps.
